Exploring the Ground of the Teacher

Dee Joy Coulter, Ed.D. is a nationally known neuroscience educator known for her ability to present complex ideas to educators and therapists in a clear, humorous style.

In workshops across the country, with her insights she has inspired educators about the latest brain research and its application to learning and cognitive coaching.

Dr. Coulter is currently researching the impact of stress on cognition, literacy, and impulse control and the cognitive dynamics of healthy aging and Alzheimers.
